Director of Public Works / City Engineer Horak

Aboveground Storage Tank Removal: Engineer Horak explained his desire to have the AST (Aboveground Storage Tank) removed from the Wastewater Treatment Plant. The tank, encased in cement, has not been used once the City started sharing fuel with the school district. The tank is approximately 20 years old and nearing the end of its service life. Funding for the removal of the tank has been in the budget for two years. The City has received a proposal for removal of \$14,000.00 from Chicago Tank Removal. Council felt there was no urgency in the removal of the tank at this time.

Hall Street Lift Station Building: At last week's meeting, the Council delayed approving a proposal from A&B Exteriors citing more details were needed to compare with a second proposal received from Thomas Builders. Repairs on the building will be limited to siding only and excludes any roofing.

Engineer Horak will obtain additional information from the businesses and place this matter on next week's agenda for a vote.
