

Press Release:

Immediate release 13 February 2018

We the members of the Sandwich City Council voted unanimously to endorse and support the efforts of the Sandwich School Board and your office in the upcoming referendum question on the March 20th, 2018 ballot. A community has several assets that are evaluated when a resident or business is considering relocating. The top of that asset list is the quality of the schools. Sandwich boasts an outstanding School system and it is incumbent of us as citizens of that community, to support the efforts of the administration in guarantying a safe and productive educational environment.

The mandates that the School faces are in place to do just that, maintain the highest level of safety for our Kids! These changes cost money. Our School Administration has done an outstanding job of balancing the costs of these improvements and still offering a lowering of our real estate taxes. I challenge anyone to find a school referendum that offers a savings to the taxpayers.

Please search out for yourself the information on the question. The School has provided print material and even a video outlining the merits of this request. The best voter is an informed voter.

The Sandwich City Council strongly endorses this referendum and encourages all our citizens to: A) vote on March 20th and B) vote YES!

Respectfully,

Richard Olson
Mayor
